

AI SECURITY HEALTH CHECK

Executive Brief · 2026 Edition

"Structure for ambiguity. Foundations for change."

Does your board know where your AI risk sits?

AI adoption has outpaced AI governance in 93% of enterprises. The exposure is no longer theoretical - it is quantified, regulated, and increasingly auditable. Boards are now accountable for risk they cannot yet see.

\$4.88M

Average global breach cost
IBM 2024

+\$670K

Extra when Shadow AI is involved
IBM 2025

97%

Of breached orgs lacked AI access controls
IBM 2025
